Projects

Tweetme   Apr 2017 to May 2017
Tweetme is a platform kind of mini version of twitter where one can post tweets, retweets and follow users. It is made on Django platform with Advance features like REST Framework, AJAX Search, Class-based views.

Colossus   Feb 2017 to Mar 2017
Knowledge platform for sharing the project works taken up by the students in Technical/Higher Educational Institutes and Universities throughout the country.

CodeShare   Jul 2017 to Current
A django application for sharing code snippets.

Shipping Monk   Feb 2017 to Feb 2017
Shipping Monk is a platform for the users of the 21 century with a goal to reduce the shipment delays and product unavailability. Thus follows a tag line of "don't miss it just ship it". This is done by creating hubs around certain parts of the city where a user can store their product if they are not around or the product is not available in his locality but is present nearest to his hub.

Awards
